

“Internal Transfer”

Shareholder should be allowed to transfer to the same unit if they qualify in all aspects. I'm on a transfer waiting list for my dream apartment for 7 years and this new proposal is a **dream killer**. I don't see this proposal to benefit any old or new shareholder than HPD. It means one less paper work to review and to be approved.

Solution: Please assign this duty to the Board or management agent to control internal transfer. They will provide an annual report to HPD with all the transfers and changes.

There is one famous speech by Dr. Martin Luther King Jr. **“I Have a Dream”**. Please do not kill my drea.
