Statement of Basis and Purpose of Proposed Rule

Boilers are regulated by Article 303 of Title 28 of the New York City Administrative Code. Elevator provisions are found in Articles 304, 401, 421 and 422 of Title 28.

Chapters 750 of 2019 and 55 of 2020 of the laws of the State of New York amended some terminology in Articles 401, 421 and 422 of Title 28 of the New York City Administrative Code. On October 7, 2021, the New York City Council passed legislation, designated as Intro. 2261-A of 2021, which further amends the articles listed above. Those amendments relate to filing timeframes for inspection and test reports and affirmations of correction and clarifying the difference between elevator inspections and tests. These rules are being amended to reflect the changes made by those laws.

In addition, these rules are being amended to align the procedures and filing requirements among low- and high-pressure boilers and elevators.

Specific changes, apart from those described above, include

Rule 101-07 – Approved Agencies:

- The heading of subdivision (c) is being amended to reflect that the provisions of the subdivision that are not being amended also cover responsibilities of approved agencies.
- Obsolete provisions and language that is now in rule 103-02 and Article 304, 421 or 422 of Title 28 are being deleted from paragraph (4) of subdivision (c).
- Language is being added to paragraph (4) of subdivision (c) to require the immediate reporting to the department of a fatality or injury related to an elevator agency's work.
- Language that has been moved to rule 103-01 is being deleted from paragraph (5) of subdivision (c).

Rule 103-01 – Low-pressure boilers:

- Language is being added to subdivision (d) to clarify an owner must hire a qualified boiler inspector.
- The requirements from rule 101-07 are being moved to subdivision (d), where they are more appropriate.
- Language is being added to subdivision (d) to specify that the acceptance of a boiler filing is contingent on the fee and any civil penalty payment being honored.
- A new penalty of \$1,000 per boiler for failure to file an affirmation of correction is being added to subdivision (f).
- The grounds for waiver of penalties in paragraph (6) of subdivision (f) is being amended to remove limits on new owners and language is being added to specify what proof is required for new owners and work in progress.
- Subdivision (g) is being amended to clarify when penalties accrue for failure to file a notice of removal or disconnection of a boiler. In addition, the penalty for such failure to file is being increased from \$500 to \$1,000 per boiler to match the penalty for failure to file a report.
- The reference to Table 28-112.7.2 of the Administrative Code is being removed from subdivision (h) as Intro 2261-A has removed boiler filing fee amounts from that table and has added a reference to department rules.

Rule 103-02 – Elevators

- The term “final certificate” in subdivision (c) is being renamed “certificate of compliance” to match the language in section 28-116.4.1 of the Administrative Code.

- Language is being added to subdivision (d) to specify that the acceptance of an elevator filing is contingent on the fee and any civil penalty payment being honored.
- Language is being added to subdivision (d) to state that periodic inspection reports for private residence elevators do not need to be filed with the department but must be kept by the owner for six years.
- Language is being added to subdivisions (h) and (i) regarding requesting extensions of the filing deadline in accordance with Article 304 of Title 28 of the Administrative Code.
- A new penalty of \$3,000 per elevator for failure to file periodic inspection reports is being added to subdivision (i).
- The grounds for waiver of penalties in subdivision (k) is being amended to remove limits on new owners and to add what proof is required for this waiver.
- The reference to the Table 28-112.7.2 of the Administrative Code is being removed from subdivision (l) as Intro. 2261-A has removed elevator filing fee amounts from that table and has added a reference to department rules.

Rule 103-05 – high-pressure boilers:

- The reference to Table 28-112.7.2 of the Administrative Code is being removed from subdivision (d) as Intro. 2261-A has removed boiler filing fee amounts from that table and has added a reference to department rules.
- Language is being added to subdivision (e) to specify that the acceptance of a boiler filing is contingent on the fee and any civil penalty payment being honored.
- Subdivision (h) is being deleted as it contains an obsolete provision regarding notice of address changes.
- A timeframe for required 48-hour notice of a planned boiler shutdown is being added to re-lettered subdivision (h).
- A new penalty of \$1,000 per boiler for failure to file an affirmation of correction is being added to subdivision (i).
- The grounds for waiver of penalties in subdivision (i) is being amended to remove limits on new owners and to add what proof is required for this waiver.
- Subdivision (j) is being amended to clarify when penalties accrue for failure to file a notice of removal or disconnection of a boiler. In addition, the penalty for such failure to file is being increased from \$500 to \$1,000 per boiler to match the penalty for failure to file a report.

The Department of Buildings' authority for these rules is found in sections 643 and 1043 of the New York City Charter and Articles 303 and 304 of Title 28 of the New York City Administrative Code.
