Statement of Basis and Purpose of Proposed Rule

The Fire Department is proposing to revise the amounts it charges patients and insurers for Emergency Medical Service (EMS) ambulance treatment and/or transport service provided through the New York City 911 System, to reflect increased costs and help defray the City's cost of providing these services.

The charges for ambulance service were last increased two years ago, in January 2021. The proposed rates in part reflect increases (including recent EMS collective bargaining increases and inflation) in personal services (PS) costs and other than personal services (OTPS) costs required to provide emergency ambulance service. The proposed rate increases have been calculated to reduce the portion of such costs that is currently borne by City taxpayers.

The proposed schedule of charges represents a single rate for Basic Life Support (BLS) service, and separate rates for Advanced Life Support (ALS) levels of service (ALS1 and ALS2). The definition of BLS, ALS1 and ALS2 are determined by the Federal Department of Health and Human Services' Centers for Medicare and Medicaid Services. The most important rate increases proposed in this rule relate to BLS service and mileage charges.

The proposed rates set forth below are the amounts that the Fire Department would bill for EMS ambulance treatment and transport service. The rates do not necessarily reflect the amounts

accepted by the Fire Department as payment for such services from government and private health insurance plans.

Terms used in the final rule that are defined in the Fire Code or elsewhere in the Fire Department's rules are indicated by *italics*.

New material is underlined. Material to be deleted is in [brackets]. Asterisks (***) indicate unamended text.

“Shall” and “must” denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. The Fire Department hereby proposes to amend subdivision (b) of §4900-02 of Title 3 of the Rules of the City of New York to adopt the following schedule of charges for ambulance treatment and transport services provided by the Fire Department through the New York City 911 System:
