@jaymart222

An E-Scooter parked in front of one of our members buildings caught fire on the sidewalk yesterday.

The Scooter owner was nowhere to be found.

The fire department came and put out the fire.

So the owner was given a bill for \$2500 for hazardous material removal.

This was in front of a building in the Bronx where \$2500 is higher than the average 1 month rent in the building.

Not sustainable.
