Statement of Basis and Purpose

The TLC is proposing rules to implement Local Law 33 and Local Law 56 of 2024 amending the Administrative Code of the City of New York, in relation to interior advertising in for-hire vehicles and the compensation derived from such advertising revenue by for-hire vehicle drivers. This initiative will permit qualified vendors to offer information, news and entertainment for passengers via tablets installed in for-hire-vehicles while enabling drivers to be paid a share of the revenue.

Specifically, the proposed rules would establish:

- A formal procedure for the licensing and supervision of businesses that provide approved electronic tablets and software for interior advertising in for-hire vehicles, including appropriate penalties for the violation of these rules.
- A framework to access and assess the gross revenue generated by each licensed interior advertising provider through each approved interior advertising device. This will give TLC the data necessary to provide a report examining the compensation received by drivers and adjust the rate of compensation as necessary.
- Rules and penalties to monitor and enforce against any negative consequences drivers may face for choosing not to display interior advertisements, such as deactivations or changes to amounts or types of rides assigned to for-hire vehicle drivers.
- Technical requirements for approved tablets and software and provision for the issuance of licenses to Interior Advertising Providers whose systems meet such requirements. Developed in consultation with the New York City Office of Technology and Innovation, these rules ensure content standards, safety features, privacy protection, and security

requirements of interior advertising hardware and software. In particular, driver and passenger data are safeguarded by limiting interior advertising device functionality, including prohibiting the capturing of personal identifying information, credit card transactions, internet access, recording and camera capabilities, screen sharing, and wireless transmission, while mandating secure access and device functionality.

- Requirements for passenger controls to ensure a comfortable passenger experience, such as giving passengers an opportunity to turn off or mute the screen before displaying any content.

TLC’s authority for these rules is found in section 2303 of the New York City Charter and section 19-503 of the New York City Administrative Code.
