

NEW YORK CITY DEPARTMENT OF HEALTH AND MENTAL HYGIENE

Notice of Adoption of Amendments to Department Rules Concerning Violation Fines and Penalties.

A notice of public hearing and opportunity to comment on proposed amendments of the penalty schedule of Chapter 7 of Title 24 of the Rules of the City of New York (“RCNY”) was published in the City Record on February 5, 2025 by the New York City Department of Health and Mental Hygiene (“Department”). The amendments add violation penalties for requirements under: (a) New York City Health Code (“Health Code”) Articles 143 (*Disposal of Sewage*), 161 (*Animals*), 165 (*Bathing Establishments*), 167 (*Bathing Beaches*), 175 (*Radiation Control*) and 177 (*Tanning Facilities*); (b) Subchapter 3 (*Rental Horse Licensing and Protection Law*) of Chapter 3 (*Licenses and Permits*) of Title 17 of the New York City Administrative Code (“Administrative Code”); and, (c) Chapter 4 (*Health, Safety and Well-being of Rental Horses*) of Title 24 of the RCNY.

A virtual public hearing on these amendments was held on March 10, 2025. One person testified at the hearing and three written comments were received. The individual who testified, and also supplied written comments, expressed concern, in relevant part, regarding what they view is a lack of specificity for certain violation descriptions. The Department responds by stating that the penalty schedule does not require modification because the proposed violation descriptions provide notice to the alleged violator of what section of law has been violated and its potential penalty. This individual also provided an additional two comments, stating that they do not believe the proposed penalty increases will improve compliance or safety, and a comment concerning the Office of Administrative Trials and Hearings’ service of process rules, which is outside the scope of this rule. Another commenter expressed concern over the percentage increase in proposed penalties for certain sauna and/or steam room violations under Health Code §165.63. The Department responds that these penalty increases are in accordance with Health Code §3.11(a) and are reasonable for safeguarding patron safety. Finally, one commenter wrote to express concern over the annual cleaning of domestic water tanks, which is outside the scope of this rule.

In response to the above comments, the Department has not made any substantive changes to the proposed rules. However, on its own initiative, the Department has decided to remove the proposed penalties for violations of Article 141 in this rulemaking, and will include those penalties in a separate, subsequent rulemaking. The Department now adopts the amended rule as provided below.

Statement of Basis and Purpose of Rules

The Department amends the Penalty Schedule of Appendix 7-A of Chapter 7 of Title 24 of the RCNY to provide penalties for certain violations enforced by the Department in order to provide fixed, consistent enforcement of civil penalties. These violations correspond to provisions in: (i) Health Code Articles 143 (*Disposal of Sewage*), 161 (*Animals*), 165 (*Bathing Establishments*), 167 (*Bathing Beaches*), 175 (*Radiation Control*) and 177 (*Tanning Facilities*); (ii) Subchapter 3 (*Rental Horse Licensing and Protection Law*) of Chapter 3 (*Licenses and Permits*) of Title 17 of the New York City Administrative Code; and (iii) Chapter 4 (*Health, Safety and Well-being of Rental Horses*) of Title 24 of the RCNY.

These amendments also add a new section 7-12 that fixes the penalty at \$250 (which is doubled if respondent defaults) for violations of Articles 143, 161, 165, 167, 175 and 177 that are not listed in Appendix 7-A.

“Shall” and “must” denote mandatory requirements and may be used interchangeably in the rules of the Department, unless otherwise specified or unless the context clearly indicates otherwise.

The amendments are as follows:

Deleted material is in [brackets].
New text is underlined.

Section 1. Chapter 7 of Title 24 of the Rules of the City of New York is amended to add a new section 7-12, to read as follows:

§7-12 Fines for violations of New York City Health Code Articles 143, 161, 165, 167, 175 and 177 not listed in Appendix 7-A.

The penalty for a violation of any provision of New York City Health Code Article 143 (*Disposal of Sewage*), Article 161 (*Animals*), Article 165 (*Bathing Establishments*), Article 167 (*Bathing Beaches*), Article 175 (*Radiation Control*), or Article 177 (*Tanning Facilities*) that is not listed in Appendix 7-A of this Chapter is \$250. The penalty will be doubled to \$500 if the respondent fails to appear to answer a summons and is found in default.

§ 2. Appendix 7-A to Chapter 7 of Title 24 of the Rules of the City of New York is amended to add the following rows in numerical order by section of law number, to read as follows:

Appendix 7-A: Penalty Schedule.
