Dear Frank Dardani

This is Commanding Officer of Queens Tow Pound. I visited location for the truck with trailer attached on 78 Street.

The rig cannot be towed without proper parking summonses. In this case 106 Precinct will have to observe the rig for 7 days and issue summons code 99 for 7 days storage...

I know I am not the popular guy at this moment but I have to explain.

The pickup truck has South Carolina passenger plate. There is no parking signs on the block. Plate is valid and no other violation. That's why the code I mention has to be utilized and only precinct can issue that summons. It requires 7 days observation.

I will stop by 106 pct and let them

Know what to do. As soon as we have valid summons for that violation we will attempt to tow it.

Respectfully yours.
